

TAIZEN

TAIZEN CHEMICAL OSMOSIS SYSTEM

In the paper industry, diverse rules and standards have been proposed to assure safety in working environments. We have been delivering high reliable and safe products systems suitable for the field use and operators with a motto of "Be friendly to a shop floor."

For the process de-inking or pulp bleach. This system was designed to mix and penetrate the chemicals uniformly for effect of chemicals.

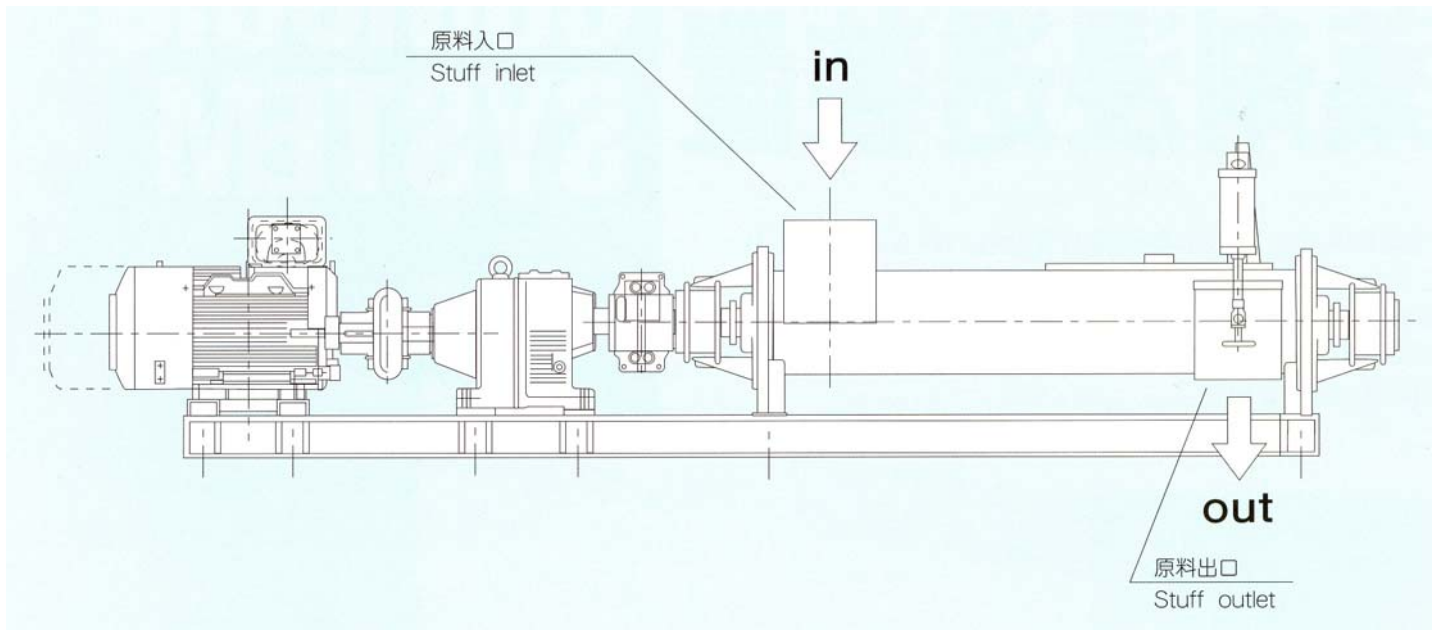

*This system was
suprisingly improved
for production efficiency
at lower cost.*
